MONOTEC

SUPERIOR IN STRENGTH & PERFORMANCE

100% AUSTRALIAN MADE COMMERCIAL SHADECLOTH

SHADE STRUCTURES ~ SHADE SAILS ~ CAR PARKS ~ CHILDREN'S PLAYGROUND AREAS
SCHOOL OUTDOOR AREAS ~ SWIMMING POOL CANOPIES ~ WATERPARK STRUCTURES

SETTING THE INDUSTRY STANDARD

Developed as an "install and forget" shadecloth, Monotec 370 Series shadecloth is the perfect solution for shade sails and structures. Uniquely made using only 100% round monofilament HDPE yarns, Monotec 370 Series provides consistent protection to people and property in the harsh Australian climate.

Monotec 370 Series shadecloth is resistant to UV rays and is supported by the industry's only 15 year warranty. The sturdy fabric construction of round monofilament yarns will not stretch over time assuring colour vibrancy and the integrity of your structure's stability for many years to come.

EXCELLENCE IN DESIGN

Monotec 370 Series is:

- ~ The only shadecloth manufactured in Australia
- ~ The only shadecloth manufactured using 100% round monofilament HDPE yarn
- ~ The only shadecloth that will retain its permanent shape and design
- ~ **The strongest shadecloth available today**

FEATURES

100% ROUND MONOFILAMENT HDPE YARN

With a higher strength to weight ratio, round monofilament yarn is stronger than tape yarn

NO TAPE YARN USED

Flat and oval tape yarns are weaker and continue to stretch, causing sails to sag after installation

NO RE-TENSIONING AFTER INSTALLATION

There is no need for installers to return after installation to re-tighten sails

MARKET LEADER FOR STRENGTH

Exceeds Australian Standards requirements for bursting and tensile strength

STRONG WIND RESISTANCE

Superior durability and performance especially in excessively high wind conditions

MAINTENANCE FREE

Due to their smooth surface, round monofilament yarns are more resistant to dirt and debris build-up

VANDAL RESISTANT

The strength of round monofilament yarn, combined with the close lock-stitch construction makes it difficult to penetrate the fabric with damaging objects

INDUSTRY RECOGNISED

Utilised in multiple award winning projects in Australia and around the world

3.25MT AND 6.5MT WIDTHS

Wide widths help reduce unsightly seams, weak points and fabrication costs

14 VIBRANT COLOUR OPTIONS

Additional custom colours available by request

FIRE RETARDANT CERTIFIED

Engineered to pass the industry's most stringent fire retardant tests both in Australia and around the world

100% AUSTRALIAN MADE

The only Australian made shadecloth available today

15 YEAR WARRANTY*

The industry's only 15 year manufacturer's warranty
*NB: 10 year warranty on FR Series
